

**INFORMATION FOR INTERNATIONAL STUDENTS AT CENTRO SUPERIOR DE
IDIOMAS DE LA UNIVERSIDAD DE ALICANTE (CSIUA)
UNIVERSITY LANGUAGE CENTRE**

Information on courses, online teaching, etc.

Intensive courses

Current / ongoing courses continue online, and all students will be able to complete them through distance learning. Apart from continuing to use ELETECA, you will receive an email with your Access to the Language Centre's Moodle, where your teacher is already uploading activities, readings, and different learning materials to continue your course online. Both through Moodle and email you can keep in contact with your teacher, hand in assignments and receive feedback. Assessment will be done online too.

April's intensive course is cancelled. We will hopefully resume intensive courses in May. We will inform as soon as possible about the date to return to regular classes and will update this page according to the situation's development.

If you have any questions regarding dates, changes in your registration, refunds, visa, terms of cancellation, etc., please write to exámenes@csidiomas.ua.es or spanish@csidiomas.ua.es

Semester courses

Semester courses continue online during the temporary closure of the university. Regular classes will be resumed when possible. Apart from continuing to use ELETECA, you will receive an email with your Access to the Language Centre's Moodle, where your teacher is already uploading activities, readings, and different learning materials to continue your course online. Both through Moodle and email you can keep contact with your teacher, hand in assignments and receive feedback. Assessment will be done online too.

If you cannot continue with regular classes after this period (which is the case, for example, of those returning to their home country and not coming back to Alicante after the state of emergency ends), you have two options:

- You can complete the course online even after regular classes are resumed, and you can have online /distance assessment.
- You can change your registration to the first semester 2020-2021 academic year in September.

If you have any questions regarding dates, changes in your registration, terms of the state of emergency, please write to exámenes@csidiomas.ua.es or spanish@csidiomas.ua.es

Courses at the University of Alicante undergraduate /postgraduate degrees

All courses at the University of Alicante will continue online during this period. Students at CSUA who also take courses on any of the UA degrees, whether as Exchange students or as Visiting students, can check (apart from the info on the regular UA webpage) the specific website developed by UA with all information about continuing coursework during this exceptional period, with complete instructions and technological resources available:

<https://pdc.ua.es/es/>

If any student cannot continue with regular classes after this period (which is the case, for example, of those returning to their home country and not coming back to Alicante after the state of emergency ends), the UA will do its utmost to help you continue your course at a distance from your country of residence and, if necessary, send the assessment tests to your university.
